Flexible bending series led linear lighting system solution

BEND SERIES
LINEAR LIGHTING SYSTEM

The Bending series productions , a sublimation from a straight line to a curve, with super long seamless silicone cover, can be splicing freely. The combination of curve and straight line. Forming a variety of combinations and multiple styles, at the same time for commercial, office, home and other types of space to provide more creative solutions.

Bending shape inside and outside, can be spliced arbitrarily.

LAYOUT

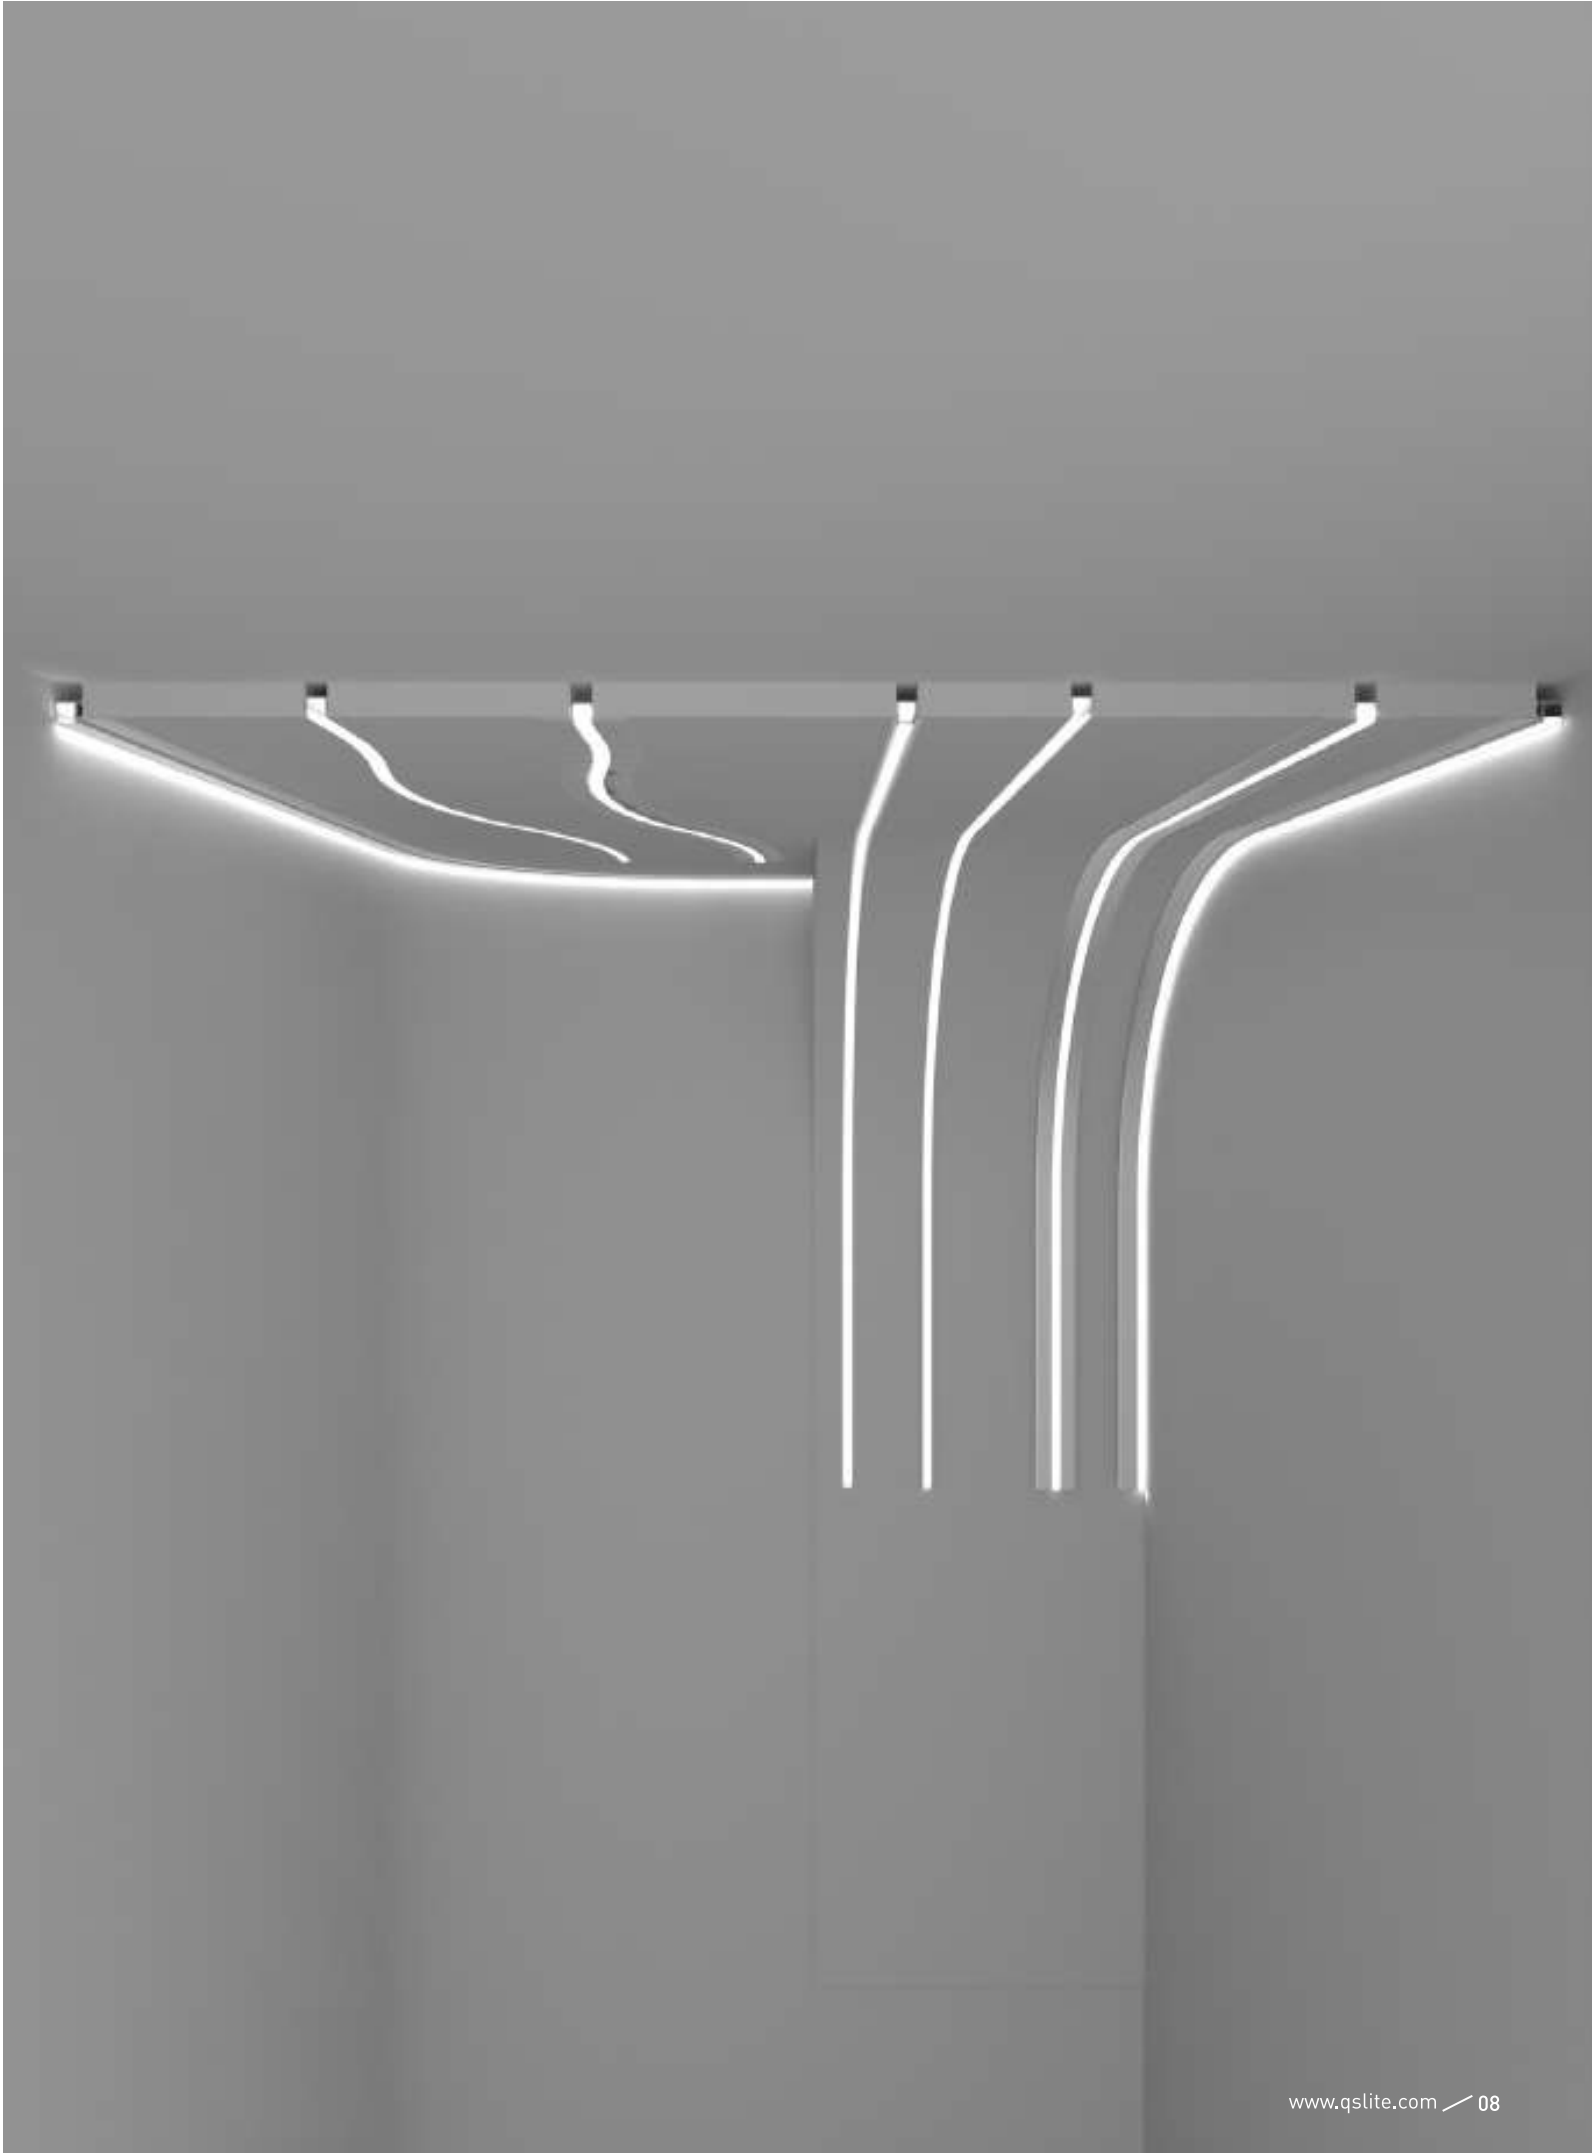

APPLICATION
SCENARIO

An abstract architectural rendering of a modern interior space. The scene is dominated by dark, shadowed surfaces, with bright white lines highlighting the edges and contours of the architecture. On the left, a large, curved white line suggests a wall or ceiling edge. To the right, several horizontal white lines of varying lengths and slight curves define a series of levels or platforms. The overall effect is one of clean, minimalist design and dramatic lighting.
